### Dreambear Saga: Trick or treat!

The arrival of the Headless Horsebear at the free browser game “Dreambear Saga” announces the dawn of Halloween. He has numerous scary costumes and an extraordinary quest for the players.

Hamburg, October 25th, 2012 – Strange things are happening in the free browser game „Dreambear Saga“. One week before Halloween a mysterious Headless Horsebear has appeared at The Growl Gate. With his head in his hand, he is sitting on dangerously luminescent pumpkins and waiting. What is he up to? Everybody who is brave enough to talk to him will realize that he is good-hearted. His biggest wish is to go and collect candy corn and caramel apples.

Unfortunately, his headless appearance is so scary that no bear wants to offer him a single treat. Now it is up to the players to try their luck and collect delicious sweets. Their first place to go is the Candy Brothers' who are well-known for their sweet titbits. These days they offer lots of pumpkins and ghost candies. When asked friendly, they will happily share some of their sweets. The enchanting Salah, Tyler and Lady Zartanna are generous as well. The players will soon have a respectable yield available. Overwhelmed by the amount of candies, the Headless Horsebear will give a tremendously eerie pumpkinhead to the players, so they can scare all the other bears of Beronia at Halloween.

Those who want some more creepy outfits can buy them from the Headless Horsebear. He offers spooky ghost, skeleton, witch costumes and many more.

The scary visitor will stay in Beronia until November 7<sup>th</sup>. Everybody who doesn't want to miss him can register at [www.dreambearsaga.com](http://www.dreambearsaga.com) without charge and play the online game for free.
